

# VALUE VIEW GOLD REPORT

“Profit Timing for Wealth Creation”

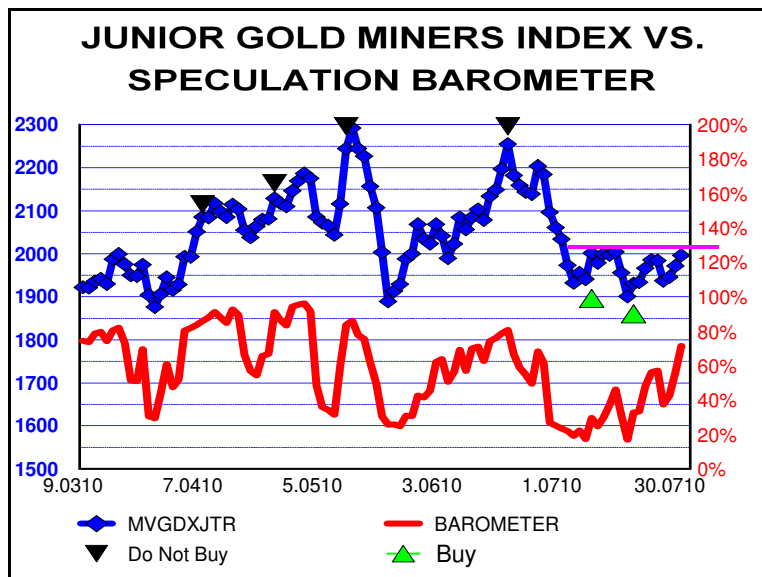

SPECULATION BAROMETER for Market Vectors Junior Gold Miners Index

the index created as the basis for

Junior Gold Miners ETF, GDXJ

updated 30 July 2010

from [www.valueviewgoldreport.com](http://www.valueviewgoldreport.com)

30 July 2010 - Could the juniors bet a bounce if Gold remains steady to up? Seem a real possibility. A move through that short-term resistance marked in the chart could mean a further advance. SPECBAR is moving higher, and often that suggest a further up move. However, such action would all be short-term in nature, not necessarily the beginning of something new and powerful.

Speculation Barometer is updated each Saturday, hopefully.
